ANTI-TOX™

- **Anti-Tox™ is a vegetarian dietary supplement to support detoxification function.***
- **Anti-Tox™** is a vegetarian formula designed to support the removal of unwanted substances from the body such as heavy metals and environmental toxins.* It is specifically formulated to include a variety of nutrients known for their detoxifying ability and protective effect on the body.*
- **Anti-Tox™** contains minerals, Vitamin C, amino acids and chlorophyll.

Nutrients of Interest:

- **Vitamin C** is an antioxidant that protects against environmental pollutants, supports the bladder and helps to inactivate harmful substances.*
- **Calcium** is preferentially absorbed over lead in the digestive tract. High calcium levels help protect against absorption. Low calcium levels allow lead to be absorbed.*
- **Iodine** is included to support metabolism.* The iodine in this formula is from kelp.
- **Zinc, Magnesium and Manganese** are included to equalize imbalances in mineral ratios. Toxicity studies on heavy metals reveal an adequate supply of essential minerals is important for maximum resistance to exposure.*
- **Selenium** is an essential trace mineral which acts as an antioxidant and is important to the immune system.* It is the essential mineral cofactor in glutathione peroxidase and functions with vitamin E in neutralizing free radicals and lipid peroxides in the cell membrane.*
- **L-Cystine and DL- Methionine** are sulfur bearing amino acids that have been shown to attach themselves to heavy metals and make them available for excretion.* They also exhibit antioxidant like activity.*
- **L-Lysine** is an essential amino acid most often lacking in animal protein foods. It plays an important role in building new body tissue and cells, and in the production of antibodies, enzymes and hormones.* The requirement for L-Lysine increases with age.

- **Sodium Alginate** is a non-nutritive substance obtained from pacific Brown Kelp. It helps to prevent the absorption of toxic metals in the body by the gastrointestinal tract.*
- **Chlorophyll** is included for tissue repair, particularly of the mucous membranes.* It is also a source of fat soluble vitamins and essential fatty acids.

Supplement Facts

Serving Size: 3 Tablets

Amount Per Serving:

Vitamin C	500 mg
Calcium	55 mg
Iodine (from kelp)	45 mcg
Magnesium	150 mg
Zinc	20 mg
Selenium (from yeast)	20 mcg
Manganese	10 mg
Sodium (from sodium alginate)	40 mg
L-Cystine	200 mg
L-Lysine	40 mg
DL-Methionine	100 mg
Sodium Alginate	300 mg
Chlorophyll	3 mg

Other ingredients: calcium ascorbate, calcium sulfate, magnesium proteinate, microcrystalline cellulose, zinc proteinate, vegetable stearate, manganese proteinate, silica.

Warning: If pregnant or nursing, consult your health care practitioner before taking this product.

- **Suggested use:** As a dietary supplement, take 3 tablets with a meal, or as directed by your health care practitioner.
- **Sold Exclusively Through Health Care Practitioners.**
