**Innovative** by nature

## CX-2 SOLUTION™

• **CX-2 Solution™ is an advanced formula designed to support:**

- joint comfort\*
- flexibility\*
- elasticity\*
- synovial fluid viscosity\*
- connective tissue health\*
- hydration\*
- mobility\*
- muscle functions\*

- **CX-2 Solution™** combines Sea Cucumber, Glucosamine, Hyaluronic Acid and MSM to support joint structure and function with Nexrutine®, Curcumin, Boswellia, Quercetin and DMG to support joint comfort.\*

**Joint Structure and Function Support:**

- **Sea Cucumber**, also known as “Beche-de-Mer”, are marine animals that are relatives of the starfish and have been used in China for thousands of years to support joint health.\* The nutrient content of Sea Cucumber is extremely broad. It is a rich source of highly bioavailable chondroitin sulfates. It also contains nutritional factors such as fatty acids, that promote joint comfort through immune system support and helps maintain proper prostaglandin levels.\*
- **Sodium Hyaluronate** is a source of hyaluronic acid (HA). HA gives synovial fluid its viscous properties which translates into greater joint flexibility, elasticity, cushioning and hydration, the same qualities of healthy young skin!\*
- **Glucosamine** is a fast-acting nutritional building block for connective tissue. It is necessary for the production of hyaluronic acid and chondroitin sulfate which support joint comfort and improved mobility.\*
- **MSM** is a source of sulfur which the body needs an abundant supply for making collagen. It has been used historically to support joint comfort and circulation.\*

**Joint Comfort Support:**

- **Nexrutine®** is a patent-pending plant extract developed from the phellodendron tree. This tree has been a rich source of traditional medicine in Asia for more than 1500 years. Its uniqueness lies in part in its ability to have a positive effect on those enzymes that support joint comfort without interfering with key enzymes that support a healthy GI lining and cardiovascular system.\* Research indicates that Nexrutine® helps relieve general aches and pains associated with physical activity and over-exertion.\*

- **Boswellic Acid** from *Boswellia serrata* has been associated with improved joint comfort by maintaining proper prostaglandin levels, providing antioxidant protection and supporting the immune system.\* *Boswellia* works synergistically with Curcumin to support liver function and detoxification.\*
- **Curcumin** is an herb that has been used for centuries in Asian cooking as an ingredient in curry. Curcumin is an antioxidant that works synergistically with *boswellia* to maintain leukotriene and prostaglandin levels.\*
- **Quercetin Chalcone** is a highly bioavailable form of quercetin. Quercetin is an antioxidant that helps maintain prostaglandin levels.\*
- **DMG** is a versatile metabolic enhancer.\* It supports joint health through immune system modulation, circulation, oxygen utilization and antioxidant protection.\*

**Supplement Facts**

**Each serving contains:**

Glucosamine HCl (from shrimp and crab)	750 mg
Methylsulfonylmethane	500 mg
Phellodendron amurense (Nexrutine® Brand)	250 mg
Curcumin Extract	200 mg
Yielding: Curcuminoids	190 mg
Sea Cucumber	150 mg
Boswellia serrata Extract	150 mg
Yielding: Boswellic Acid	90 mg
Quercetin	100 mg
DMG HCl	75 mg
Sodium Hyaluronate	20 mg

Other Ingredients: vegetable cellulose, rice flour, vegetable stearate, pharmaceutical glaze.

- **Contains: Shrimp, crab and sea cucumber.**

**Warning:** Do not take this product if you are pregnant, nursing, or on prescription antibiotics, anticoagulants/anti-platelet drugs or have gall bladder disease.

- **Suggested Use:** As a dietary supplement, take 3 capsules, 1-2 times daily, or as directed by your health care practitioner.

Sold Exclusively Through Health Care Practitioners.
