L-LYSINE

- **A vegetarian dietary supplement to support the body's antibody, hormone and enzyme functions.***
- L-Lysine is a basic building block of all protein. It is an essential amino acid in that it is required for human nutrition, but is not produced by the body.

- **Lysine is required for:**

- Growth and bone development in children*
- Assisting calcium absorption*
- Maintaining correct nitrogen balance in the body*
- Maintaining lean body mass*
- Antibody, hormone and enzyme production *
- Collagen formation and tissue repair*

- **L-Lysine supports:**

- Building of muscle protein*
- Recovery from injuries and operations*
- Cold sores*

- **L-Lysine deficiency may result in:**

- Enzyme disorders*
- Lack of energy*
- Weight loss*
- Slow growth*
- Poor appetite*
- Poor concentration*
