## DAVINCI POTEN-C®

- **A dietary supplement to support immune system function and collagen health.\***

- **Vitamin C:**

- Helps maintain collagen\*
- Helps form red blood cells\*
- Provides antioxidant protection against free radicals\*
- Supports the immune system\*

- **DaVinci Poten-C®** contains Vitamin C in a buffered Ascorbate form. Ascorbate is a Vitamin C molecule with a mineral ion. All Vitamin C must link up with a mineral before it can be absorbed into the blood stream. By supplying minerals along with Vitamin C, **DaVinci Poten-C®** supports the immediate assimilation of Vitamin C in the body.\* Because **DaVinci Poten-C®** is in the Ascorbate form and the presence of minerals help to act as natural buffers, it helps prevent stomach irritation that is common in non-buffered formulas.\*

- Vitamin C or Ascorbic Acid belongs to a class of vitamins which are termed water-soluble nutrients. It is not stored in the body and should be replenished throughout the day and evening for optimal health.\* As a water soluble vitamin, the body is able to excrete any unneeded levels of Vitamin C, which allows for flexible dosing.\*

- **DaVinci Poten-C®** contains Bioflavonoids, which increase the effectiveness of Vitamin C by 50%.\* Calcium, Magnesium, Zinc, Manganese and Potassium are included in the **DaVinci Poten-C®** formulations. The diuretic effect accompanying higher intake of Vitamin C often depletes the body's store of vital minerals. **DaVinci Poten-C®** provides a bioavailable source of minerals.\* Pectin has been shown to be beneficial in managing cholesterol levels within normal ranges.\*

- **DaVinci Poten-C®** is available in two potencies and forms. The **DaVinci Poten-C® 500** is an easy to swallow vegetarian capsule, while **DaVinci Poten-C® 1000** is a convenient vegetarian tablet.

### DaVinci Poten-C® 500

#### Supplement Facts

**Serving Size: 1 Capsule**

**Each serving contains:**

Vitamin C	
(as Ascorbic Acid and mineral Ascorbates)	500 mg
