## SKIN & COAT FOR DOGS

**Skin & Coat for Dogs** supports a luxurious coat and support normal shedding. This tasty treat is recommended for dogs of all sizes, breeds and ages. It is the perfect treat for dogs with food sensitivities.

### **Skin & Coat for Dogs chews are designed to support:**

- Coat sheen, luster and proper skin tone
- Skin comfort for dogs
- Support normal shedding
- Strengthen hair shaft and follicle

### **About the Formula**

**Skin & Coat for Dogs** contains 14 ingredients that support conditioning of a healthy coat in dogs

- Flax seeds are rich in ALA (alpha-linolenic acid), an omega-3 fatty acid. Omega-3 fatty acids help support skin comfort. Flax seeds also contain lignans, which may have antioxidant actions, as well as vitamins B1, B2, C, E, beta-carotene, and the minerals iron, zinc, potassium, magnesium, phosphorus and calcium.
- Safflower oil, is an excellent source of Linoleic Acid (Omega-6 fatty acid), which supports skin tone and elasticity. Linoleic Acid is an essential fatty acid needed by the skin and supports the texture and luster of the coat. Incorporation of fatty acids into cell membranes supports the structural integrity of the skin and coat.
- Vitamin E (natural) is essential for skin health. It is an antioxidant that neutralizes free radicals that could damage skin.

- A veggie blend of dried carrots, dried alfalfa, kale and dried kelp are wholesome sources of nutrients that are important for skin health. Kelp and alfalfa support mineral balance which is necessary for good skin tone.

### **Guaranteed Analysis Represents Minimum Levels**

#### **Per Chew (3.5g):**

Crude Protein (min)	19.0%
Crude Fat (min)	12.0%
Crude Fiber (max)	9.0%
Moisture (max)	10.0%
