DAVINCI POTEN-C®

- **A dietary supplement to support immune system function and collagen health.***

- **Vitamin C:**

- Helps maintain collagen*
- Helps form red blood cells*
- Provides antioxidant protection against free radicals*
- Supports the immune system*

- **DaVinci Poten-C®** contains Vitamin C in a buffered Ascorbate form. Ascorbate is a Vitamin C molecule with a mineral ion. All Vitamin C must link up with a mineral before it can be absorbed into the blood stream. By supplying minerals along with Vitamin C, **DaVinci Poten-C®** supports the immediate assimilation of Vitamin C in the body.* Because **DaVinci Poten-C®** is in the Ascorbate form and the presence of minerals help to act as natural buffers, it helps prevent stomach irritation that is common in non-buffered formulas.*

- Vitamin C or Ascorbic Acid belongs to a class of vitamins which are termed water-soluble nutrients. It is not stored in the body and should be replenished throughout the day and evening for optimal health.* As a water soluble vitamin, the body is able to excrete any unneeded levels of Vitamin C, which allows for flexible dosing.*

- **DaVinci Poten-C®** contains Bioflavonoids, which increase the effectiveness of Vitamin C by 50%.* Calcium, Magnesium, Zinc, Manganese and Potassium are included in the **DaVinci Poten-C®** formulations. The diuretic effect accompanying higher intake of Vitamin C often depletes the body's store of vital minerals. **DaVinci Poten-C®** provides a bioavailable source of minerals.* Pectin has been shown to be beneficial in managing cholesterol levels within normal ranges.*

- **DaVinci Poten-C®** is available in two potencies and forms. The **DaVinci Poten-C® 500** is an easy to swallow vegetarian capsule, while **DaVinci Poten-C® 1000** is a convenient vegetarian tablet.

DaVinci Poten-C® 500
