# GINKGO BILOBA

- **An herbal supplement to support circulatory and brain functions.\***
- Ginkgo biloba is one of the world's oldest living tree species, believed to have survived for 200 million years.
- Ginkgo biloba has traditionally been used to support healthy brain and respiratory function, ocular health and memory.\*
- Recommended for those who need additional support with neurological, respiratory, vascular, sexual, cardiovascular and memory functions.\*
- Ginkgo biloba contains active compounds (ginkgo flavone glycosides) that are free radical scavengers, which support cell membranes in the brain and other tissues.\*
- **Ginkgo flavone glycosides support:**
  - optimal uptake and utilization of oxygen and glucose\*
  - blood flow to the brain and extremities\*
  - neurotransmission function in the brain\*
  - memory and mood balance\*

- Ginkgo biloba supports the rate at which information is transmitted at the nerve cell level.\*
- Ginkgo biloba may have ability to scavenge free radicals, normalize vascular functions and support metabolic processes.\*
