# PYCNOGENOL®-50

- **A dietary supplement to support the immune system, vascular functions and skin health.\***
- **Recommended for:**  
Recurrent or persistent skin or respiratory concerns\*  
Children and Adults who find it difficult to concentrate or focus\*  
Joint discomfort\*  
Skin and collagen health\*
- **Supports:**  
Ability to focus\*  
Brain function\*  
Cellular integrity and functionality\*  
Circulation\*  
Histamine regulation\*  
Immune System function\*  
Joint Comfort\*  
Vascular integrity\*
- Pycnogenol® (Pine Bark Extract) is a source of proanthocyanidins (PCOs).
- PCOs are bioflavonoids, a group of water-soluble, low molecular weight plant substances with recognized antioxidant (free radical scavenging) properties. They have the ability to inhibit the activity of certain enzymes which cause pro-inflammatory reactions within the body.\* PCOs are unique because they are immediately bioavailable.
- In some comparative tests, Proanthocyanidins were found to be 50 times more potent than Vitamin E and 20 times more potent than Vitamin C as antioxidants.\* Free radicals are oxygen atoms which can badly damage cell structures leading to lowered immune response and vulnerability to numerous degenerative diseases. The PCOs in Pycnogenol® are able to perform within the cell membrane and neutralize both fat and water-soluble free radicals.\*
- PCO's are important to brain function, because they are one of the few dietary antioxidants that readily crosses the blood-brain barrier to directly support healthy brain cells, focus, concentration and memory.\*
- Proanthocyanidins help to prevent the release of histamine from mast cells thereby reducing the adverse effects of histamine.\*
- Proanthocyanidins support capillary strength.\* Weak capillaries can contribute to bruising, elastin and collagen dysfunction, excess fluid in tissues, and circulatory insufficiencies.
- Pycnogenol® also has the unique ability to bond to collagen fibers.\* It may support the inhibition of the natural enzymes your body makes that normally break down collagen.\* By restoring collagen, Pycnogenol® helps support flexibility of skin, joints, arteries, capillaries, and other tissues.\*

**Supplement Facts**  
**Serving Size: 2 Capsules**  
**Amount Per Serving**  
Pycnogenol® (Pine Bark Extract) 100 mg

Other ingredients: vegetable cellulose, microcrystalline cellulose, vegetarian leucine, silica.

**Warning:** If pregnant or nursing, consult your healthcare practitioner before using this or any nutritional product.

**Suggested Use:** As a dietary supplement, take 2 capsules with breakfast and 2 capsules with lunch for two weeks. Then take 2 capsules daily with your breakfast, or as directed by your healthcare practitioner.

Pycnogenol® is a registered trademark of Horphag Research Ltd. Use of this product may be protected by one or more U.S. patents and other international patents.

Sold Exclusively Through Healthcare Practitioners.
