SCALE DOWN™

A Dietary Supplement to Support Weight Management and Satiety*

Recommended For:

- Weight Management*
- Satiety Support*
- Cardiometabolic Support*
- Free-radical Fighting Support*

DyглоFit® is a natural, self-affirmed GRAS, standardized extract of *Dichrostachys glomerata* fruit. This fruit has a long history of use as a culinary spice and for medicinal purposes in West Africa.

Multi-patented **DyглоFit®** contains polyphenol bioactives that help provide healthy weight management and metabolic wellness benefits (“weight wellness”) via multiple mechanisms of action including enhancing leptin function.* These types of polyphenols may help enhance insulin sensitivity allowing more blood sugar to be used for energy and less converted to fat.*

DyглоFit® bioactives provide superior free-radical fighting protection to support cardiovascular health. Research indicates these types of polyphenols possess properties which help provide resistance to challenges associated with metabolic dysfunction.*

DyглоFit® elevates the standard in terms of “weight wellness” nutraceuticals as a result of its multiple mechanisms of action of **DyглоFit’s®** polyphenol bioactive constituents and its convenient delivery system.*

These polyphenols possess mechanisms which include:

- 1) Enhanced insulin sensitivity support*
- 2) Advanced free-radical fighting protection*
- 3) C-Reactive protein support*

The Leptin Connection:

DyглоFit® helps support satiety mainly as a result of its influence over leptin functionality. Leptin is a master hormone produced by fat cells that regulates satiety, appetite control, and thermogenesis, and is associated with metabolic rate.*

Polyphenols, like those found in **DyглоFit®**, may help support healthy levels of C-reactive protein, which can bind with leptin and impair its ability to reach the brain and initiate the signal to the body that it is full.* When the leptin is unbound due to healthy levels of CRP brought about by the polyphenolic compounds found in **DyглоFit®**, the signalling capability is restored.*

The convenience of a great tasting, sweet mint liquid delivered in a pump format for easy adjustment to the serving size sets the stage for increased compliance and better clinical outcomes.*

Supplement Facts

Amount Per Serving

Serving Size 1 ml (5 sprays)

DyглоFit® <i>Dichrostachys glomerata</i> Fruit Extract	200 mg
Stevia Leaf Extract	5 mg

Other ingredients: glycerin, water, ethyl alcohol, potassium sorbate, peppermint oil.

Warning: If pregnant or nursing, consult your healthcare practitioner before taking this product.

Suggested Use: As a dietary supplement, hold nozzle 1” from mouth, spray five times and swallow. Use once daily or as directed by your healthcare practitioner. Shake well before use.

Sold Exclusively Through Healthcare Practitioners.

DyглоFit® is a registered trademark of Gateway Health Alliances, Inc. and is protected under U.S. Patents 8,241,682 and 8,623,432; and patents pending.

020088H.030

30 Serving 30 ml (1 oz) bottle.
