L-LYSINE

- **A vegetarian dietary supplement to support the body's antibody, hormone and enzyme functions.***
- L-Lysine is a basic building block of all protein. It is an essential amino acid in that it is required for human nutrition, but is not produced by the body.
- **Lysine is required for:**
 - Growth and bone development in children*
 - Assisting calcium absorption*
 - Maintaining correct nitrogen balance in the body*
 - Maintaining lean body mass*
 - Antibody, hormone and enzyme production *
 - Collagen formation and tissue repair*
- **L-Lysine supports:**
 - Building of muscle protein*
 - Supports the natural regeneration of cells via normal tissue repair processes*
 - Supports natural immune response*

- **L-Lysine deficiency may result in:**

- Enzyme disorders*
- Lack of energy*
- Weight loss*
- Slow growth*
- Poor appetite*
- Poor concentration*
